Most Congressmen are just lost souls

You can stop that right now by your upon it being fullowed.

I don't think much of the "educational" I don't think much of the "educational" movement. That is our trouble. If we aren't educated enough now to start working we never will be. Start with what you have got. Four or five good strong patriots who know what they want—then expand from them to a group of eight or ten—the rest will follow. It is too "trouble-some" for most "cople to be educated.

Then follow year program of finding candidates. You know what a job that is. We haven't the slightest notion what any candidate we elected last fall reality thinks and very 'ew of them can state a principle of Government.

What is the principle of Government
the Republican Party believes in? Now,
your group might just as well state that
principle as anybody—then insist upon it.
Try to get it adopted in other groups and
then try to get the Party to adopt it. Who
knows, you might succeed. The Party is
like a blubbering old whale out at sea,
waiting to be dragged in by somebody who

Don't raise any finances until the Party Don't raise any finances until the Party nominates the kind of candidates it ought to nominate. You will have to labor with those candidates to convince them that you know what it is you expect of candidates. Follow the thinking of Barry Goldwater—he is going to be one of the leaders of the Party and needs support.

Many experts say that the l'outed States government will probably not reach its 200th birthday in 1975. If Americans knew how Communists and socialists are working here to destroy our form of government and our way of life, they would rise up and protect themselves.

But today most Americans are escaping from reality in their TV, their movies and their sports. They are so over-organized and over-entertained that they don't think they have any time to do anything for their country to save their own property

their country to save their own property and freedom.

America's future depends upon every man facing this problem today.

You have doubtless seen the recent and riverly advertised book ertitled Whet We Must Know About Communism by Harry and Bon aro Overstreet. It is a strange book. I cannot take time to analyze it or to discuss the possible motives for the authors' silence about the most important parts of the vast web of subimportant parts of the vast wee of sur-version that extends from the humblest primary school to the highest court to our land. But I shall limit myself to matters that the Overstreets ignore or evade. And I can give only the most perfunctory summary of a few selected aspects of the ter-

mary of a few selected aspects of the terror that is upon us.

I first encountered Communists and
their allies, the "liberal intellectuals,"
when I was a lad in college, and I then
formed the impression of them that so
many people of my generation still carry
in their minds. The pro-Communists
among my fellows were so childish and
so ignorant! Many of them, to be sure,
were gills enough in parroting the phrases
and arguments they had heard or read,
but they obviously belonged to the group
that worked hard only to avoid hard in-

and arguments they has heard or reach but they obviously belonged to the group that worked hard only to avoid hard intellectual work. They talked, and they seemed to believe, Marxism, a crude and absurd superstition that can be taken seriously by no one who has any knowledge of human history and Occidental culture. There were also a few members of the faculty who were obviously pro-Communist—remember that this was years and years ago, and the college in which I was an undergraduate was not so progressive as others even at that time—a few members of the faculty, I say, but they were all teaching the "science" of "education" or some aimilar bunk that was obviously a fraud on the public and an insult to the intelligence of an educated man. My friends and I thought the Commies, young or old, very funny.

or old, very funny.

We had all heard, of course, of what had happened and was happening in Russia, but we did not know then what everyone knows now, that the Bolshevik butchery in Russia had been organized in the United States, financed from the United States, financed from the United States and carried out by a same United States, and carried out by a gang of 1700 disciplined assassins, most of whom came from New York City. And in any case Russia was a distant and barbarous country, and nothing could be more ludicrous than a suggestion that what had happened there could conceiv-

more ludicrous than a suggestion that what had happened there could conceivably happen here.

I spent the war mostly in Washington, in the most secret department of the Army, and my first shock virtually coincided with the beginning of my work there. One of our basic maxims was this: "Remember that everything that is known in the White House is known in the Kremshin." That was a shock at the time, although now, of course, everyone who has read at all about Communism knows that Roosevelt's assistant, Lauchlin Currle, a counterpart of the more recently infamous Sberman Adams, was a Communist agent and that he, with a trained corps of at least thirty traitors, presided over all the activities of the White House.

It was not until later that Rarry Hopkins, the man who dispatched to Moscow all the plans for the atomic bomb together with the materials necessary to manufacture it, moved into the White House to expervise the work of treason.

At that time Washington was full of Communists, both domestic and foreign, and they had already obtained that complete control of most of the governmental bureaus that they have held ever since

they had to crash through a double barricade—first a wall of paving blocks and then have fence nearly eight feet high. Just recently, another East German family had crashed through in the same place in a truck, also without their possessions. Why do these families flee from "peace" of course, mere commonplace now, and, under coexistence with the Communists. In Informed circles, was mere common—Ask your ladies that.

In Weshington it was end is easy most Communists; in fact, what is difficult in avoid meeting them. I tried to take advantage of the opportunity to observe the vermin socially. And I have been observing them ever since.

There are two basic facts that one must when one tries to under-

the vermin socially. And a nave used to serving them ever slose.

There are two basic facts that one must bear in mind when one tries to understand Communists.

First, all the talk about an "ideological struggie" is mostly somesure. No Communist, except guilible college boys and other children, really believes in the doctrine and socialism. Mara's about theories are merely a propaganda device, a means to an end. The intellectual processes of the Communist have been well explained by Carelaw Millers in his Captive Mind, and the Seviet Maniality, but they were best spliomized by Deant Niemeyer in his Insputry into the Seviet Maniality, but they were best spliomized by Deane Tharits.

This young American, who had come-bow escaped brain weaking in his high school and college, was taken prisoner in Chinese Communists who sought to convert him. He received some attention from a really important Communist official, and his native shrewchess enabled him to see that the Communists who make the decisions had only contempt for their in-

see that the Communists who make the to see that the Communius woo make the decisions had only contempt for their inferiors who really believed the Marxish propagands. As Thorin neatly puts it:
"Intellects that failed to see through the faisities of Communium were so arrested that they were of only limited use in the totalitarian state."

It is muit incorpor, therefore, to say

It is quite incorrect, therefore, to of a Communist, unless you mean that It is quite incorrect, therefore, to say of a Communist, unless you mean that he is a fool, that he believes in Communism. Communism is not a theory in which men may believe; it is a ceaspiracy in which men may believe; it is a ceaspiracy in which men men perticipate. So far as Communism has an intellectual basis, that basis may be found in the doctrine, not of Karl Marx, but of Jehn Dewey. The Communist is the perfect Pragmatist; he is a Nihillist; he believes that there is no such thing as truth. He repudistes and hates all the traditions and culture of the Past; there is no truth, there is no walue in the world but the satisfaction of his own whims and appetites, whatever they may be intellectually speaking, he is a heast—perhaps the leavest and mest dangerous of all beasts. Pethaps the neatest illustration of the intellectual processes of a Communist and

Perhaps the neatest illustration of the intallectual processes of a Communist and the jargon that he loves to use will be found in comments made to me by a subsersity president some time ago. I had happened to mention the old ideal of scholarship and learning: disinterested pursuit of truth. I thought that he would at least pay lipservice to this ideal, but he interrupted me imperiously.

There is no truth but social truth, he end

"And what," I saked, "is social truth?"

He replied quite simply: "it is what it
is expedient for a society to tell its mean-

"And who," I saked, "determines what story it is expedient to tell the suckers." He smiled. "WE de."
Now I cannot be certain that the man in question was a member of the Communist underground, but the reasoning that he employed is that of the Communist mind. There is no truth; there is only expediency. Truth, in other words, is lies. But intellectual nihilism, the repudiation of all concepts of truth, justice, humanity, is not sufficient to explain the terrible energy of the Communist conspiracy. That

energy of the Communist compiracy. That energy is emotional: it is a lust, a craving

emergy of the Communist conspiracy. That emergy is emotional: it is a hast, a craving, a passion arriving my days in Washington.

I met a young man who had just come-tasto the array, He looked like an amiable college boy, and, as a matter of fact, he had been graduated from law achool only two or three years before. He had been working for the Labor Relations Beard, and he embustationally described to he the way in which he and his colleagues would raid small American corporations that were inclined to be recalcitrant, seize their books and cart them off, cetenably for the purpose of photographing them, but actually to force the company, paralyzed by the loss of its records, to submit. I was a little shocked, and I asked, "Lieutemant, didn't it seem to you that

wall, we will sheet them at the beary itsely die lenger that way."

That was how'I first came to suspect the real orientation of Communist minds, but only after years of observation, and with help from the illuminating analysis by Denis de Rougemont, did I realize that the young man was exceptional only in the readiness with which he let ally the mask. The true Communist, whatever disguise he may wear when he moves among you, is, in the literal and exact meaning of the English word, a these, that is, a man has made a religion of mercher.

He is driven by an overwhelming hard to destroy and uproot, to annihilate civilization, to kill—and even more than that, to make decent men and women suffer, to degrade them to the level of animals. And he will work constantly, tirelessly, with infinite cunning for his ideal: The day when he will drag you from your home, kick in your teeth, crack your ribs, and throw you into a slave-labor camp where

w you into a slave-labor camp w throw you into a slave-labor camp where you will drag out the rest of your life in a degradation that you have never imag-ined even in nightmares. That is what be yearns for. Econsenie and social theories are merely a disguise in befinddle sucters.

are merely a disguise to beforded sucters. In 1872, when the headquarters of the international Communist compliracy were openly and officially transferred to New York City, there were only a few hundred people in the United States who were inspired by this bloodiust. But they went to work, patiently, doggedly, and with vicious cunning, to extend their tentacles over the entire ration. They went underground. ous cunning, to extend their tentacles over the entire nation. They went underground. By 1876 practically all of the members, including, of course, the new recruits, had been instructed to conceal their member-ship and deny that they were Communistry, to penetrate existing American organiza-tions, and to help one another attain po-sitions of influence and power in those organizations; is work for the Communistry goal under the guise of "social reform" and "democracy." This is, of course, the basic strategy that has been followed over-since.

By 1997 the Communists were strong enough to organize a wing of the party that operated openly under the leader-ship of a criminal named William Z. Fes-ter. One of Foster's closest associates and ser. One of power's closest associates and advisers, in 1907 or soon thereafter, was Felix Frankfurter, an immigrant who had wormed his way into the post of secretary to the Secretary of War in the cabinet of President Howard Taft. By 1918 the first big Communist cell

President Howard Taft.

By 1918 the first big Communist cell
was planted in an American university—
Harvard, of course. So far as I have been
able to learn, the famous cells in Teachers
Callege of Columbia University were not
organized until somewhat later.

By 1917 the Communist compiracy in
the United States was strong enough directly to affect the policies of the American government. As everyone knows, the
Communist seizure of power in Russia
was carried out by criminals trained in
the United States. A whole shipload of
this yearnin was sent from New York City
under the command of a butcher named
Lath Breastein, who became famous under;
one of his many aliases, Lees Treaky.
This ship was intercepted by the British
Ravy and taken to Halifax, but a vigorous
protest from President Wilson forced the
British to release this shipment of human
germs and escori it to Russia.

The pressure on Wilson doubless came
from several sources, but the most important seems to have been a heavier named.

from several sources, but the most impor-tant seems to have been a banker named Jakob Schiff, who had been the financial

manager of Wilson's presidential cam-paign, and whose banking house, Raha, Look & Co., had more than a year earlier deposited in Swedish banks \$50,000,000 in the name of Tretaky and another degener-ste whose true name and party career has never been satisfactorily ascertained but who is known to history as Nikolal Leuis.

who is known to history as Nikolal Lenis. In 1918 Felix Frankurier was publicly denounced by former President Theodore Booseveit as an accesspiles of Lenis and Tressky. He accordingly retired from the American government to a professorable in Harvard University, where he settled down to train two generations of traitors and slip them into positions of responsibility in Washington or into law schools throughout the mation. Alger Has was but one of the hundreds whom Frankfurier prepared for their important tasks.

I have mentioned these dates primarily

I have mentioned these dates primarily to remind you of the great progress that the Communist conspiracy made before 1918, when they decided to set up an official political party headed again by William Z. Fester. This official party, the segliam Z. Pester. This official party, the seg-ment of the conspiracy that is open it y displayed, has never been large. It presi-ably has never bed sver 99.000 card-car-rying members at any one time. It has served on the one hand as a recruiting and testing agency to enlist talented con-spirators who, after they had proven their worth and ability, could quietly be trans-ferred to one or another division of the underground, and it has served on the other hand as a shield to mask and facili-tate the work of the part of the apparatus that consists of conspirators who pose as that consists of conspirators who pose as "liberal intellectuals," and who urge the American people to save themselves from Communism by reterming their legal and economic system along Communist lines at home, and by taxing themselves to finance Communist governments aboved.

Now these features

Now these foreign events, although, of course, designed to weaken further our military poetition, are, in the Communist plans, strictly subscritinate to the great program of internal subversion. This also has its center in Washington. Let me call your attention to one detail that you may not have noticed. We have all read about the president's so-called "economy" budget, and the loud yammering in Congress for increased expenditures, which is, of course, primarily a means of making fool-ish Americans think they have gained something if merely the crippling burden of that "economy" budget is dumped on their backs. Taxation has always been one or the primary instruments of the Communist occapitary. You may remember the famous remark that is attributed to Harry Hopkins, I know not how accurately: We have to bleed the American plan far before we builcher them."

But in this "economy" budget one should note which department of government was granted the largest increase. It is the Department of Health, Edmantion, and Walfare, which, in this budget, is granted a total outlay of \$1,129,719,000—as increases of one billion deliars over 1954. Now this is the agency that is spending its money to promote such things as association of public water supplies.

By the way, you are here on the feened one of their great trimphs, probably probably Now these foreign events, although, of course, designed to weaken further our

Baseriation of public water supplies.

By the way, you are been on the access
of one of their great triumphs, probably
a triumph obtained by lavisth expenditures from the Federal treasury. The unfortunate people of Chicago were ordered
by the little dictator in their city hall to
drink water contaminated with sodium
fluoride, and they are now drinking it,
and are not even allowed to express their
own opinion by a vota.

The Beneritancia of Health Education

The Department of Health, Education ad Welfare is also the agency that is cur-

Tently premoting another Communications of the scheme to emiliat the services of well-hosening dupes under the guize of social good." The current agitation about Montal Health was begun by the Weid Health Organization whose preplicent was that this unique too traiter, Algar Hiss. It is sponsored in this country by the National Assection, Julium Behrieber, where to tell a secision for Mental Health, whose directive, Julium Behrieber, whether or not be was a Communication the grounds that his snawer might instrinducts him.

But the greatest promotion is of country to the second of the

But the greatest promotion is, of course, done with your maney by the Department of Health, Edmention, and Welfare. In this done with your manner by the Department of Heathi, Education, and Welfara, in this one department, according to Herbert's Philibrick, an age n t of the F.B.I. who spent nine years in the Communist party, your will find fully sme-third of the sep reflected of Communist complications in this country. Note, please, that he does not engarisent are Communist, On the contrary, observers in Washington estimate that 15% to 16% of the proposition of the contrary. Observers in Washington estimate that 15% to 16% of the proposition of the contrary. Philibrick's point is must of the whole-top echelon of interphilmal oriminals, one-third have cheesen by pince themselves in that one dejartment, That's a lot of nation eggs to put in one basiste, but the statistic will help you understand why this department needs \$3,129,719,000 for its "minimal" uperations pert year.

I have said enough, I think, to suggest

I have said enough, I think, to suggest

I have said enough, I think, to suggest how desperate our ultration in. Our encettors were never confronted by a danger so terrible and so hamsediste.

But I permit myself to see some hope. As the huge saie of the Overstreet book abows, the Asserieus people, who watched in a narcott apathy, induced by the press and the radio, while the Communist conspiracy struck down the late Senator Joseph McCarthy, are all fast becoming faintly aware of their danger. Some people sverywhere have been made unpeople sverywhere have been made unfaintly aware of their danger. Some people everywhere have been made uneasy by such outrageous exhibitions of Communist confidence as the use of paramopers to over a we Americans who thought that they had constitutional rights. Protest is at last being heard against taxes that are imposed outensibly for "welfare" and "progress," but in reality merely to bleed dry what Hopkins called "the American pigs." Farmers are rejecting the bribes offered them by the cummissars, and resenting governmental terrurism. And what is even more interportant, on the local level in many a community people are becoming aware of the portant, on the local level in many a com-munity people are becoming aware of the real purposes behind such things as re-gion a) planning, fluoridation, "mental health," counselling programs" in the achouse, and the many other local activi-ties that serve the Communist purpose of persuading the books in fasten on them-selves their own chains.

I know of no more clear and concise program for Americans than that which you set forth in the magnificent set of resulutions adopted fast April by yo resolutions adopted text April by your Continental Congress, I may say that I dirst permitted myself to hope when I read it hose resolutions in the pages of the American Mercary, a magazine which, by the way, the Comman a let occapitacy, through its control of the distributing agencies, has succeeded in harring from sent of the nation's newstands.

Remember that the testacles of the unsultance wear, into your home term, where

Remember that the tentacles of the emplacy reach into year home town, where its puppets are premoting duoridation, "mental health," and innumerable other plans to accustom us to gradually increasing slawery and infinidation. On these issues also you have in your resolutions given Americans a program for action.

Take that program and act by it in all matters, national or. Josel. Make pour voice heard. Each one of you belongs to a club or a sucial circle. Speak out; fell Americans of their danger. I sak you for outrage and resolution: you have displayed them as an organization; now display them as individuals in the nommunity to which you belong.

This may, I know, entail some sacrifice. But our sacretors risked their lives and their bonor to create this action. In it no much to sak us to risk our lives, if necessary, to recapture it from our secundary.

All Perfectly Legal!

The other day, in Los Angeles, the muscle of government, fair-panuplied with police, evieted several low-income families from their homes—bodily and forcibly. Back in 1951 the City Housing Authority had condemned their private residences and deposited a court-determined price to their account. The proprty was supposd to be for a housing project; instead, it's to be used as a ball park.

determined price to their account. The propriy was supposd to be for a housing project: instead, it's to be used as a ball park.

At least one of the families refused to claim the money and stayed on in their home in protest. Out of the deposited funds they now now have to pay rent to the city for their years of staying on?

Don't get upset. The police were only "doing their dity." Officials are not individually heartless. One who had objected said resignedly. "It's the law, so I guess it's all right." Everthing was perfectly legal. It was also "legal" when government confiscated the livestock of Amish farmers for refusal to accept social security fined Stanley Yankus for producing more reops than government said he should and in other ways interfered in the lives of its entirents!

And all those years our good-hearted "liberals," plunking for the Welfare State, have been saying that government is the fount of blessing and benevolence Beating their breasts, they have declared we need more government to help "the LITTLE people."

Could it be they were kidding?

The \$2.3 billion reduction in U.S. gold stock during 1958 has started the whole world wondering. This leaves the U.S. a gold reserve of little more than \$20 billion. Of this a substantial portion is subject to call by foreign interests with investments in this country. Yet it is un-lawful for any U.S. citizen to possess a gold coin in the

U.S. Those who know must about the gold shurtage in the U.S. are disturbed because Americans are not worried about it. Others say we should not make people worry because we soon may have little left with which to stabilize our economy from the wild ravages of inflation except blind faith. These subversive influences who are deliberately undermining our economy know that faith will not be enough. will not be enough.

We all know, for example that Conaccommon Dits of Trans happened to obtain photographs of a part of the Communist records which showed that 2,500
members of just three governmental departments—State, Justice, and Interior—
acre card-carrying members of the Communist Party. He took those records to
President Roosevelt, who, in one of those
fits of almost insane temper to which he
was so frequently subject screamed ou.

"Many of my best friends are Communists." and ordered the Congressman from

It is not so generally known that a presidential order commanded the Naval Institution of the Community of the Community whether dements or alter, and to destroy all records rencerning Community traiters and aples.

destroy all records roncerning Communist trailors and aples.

Washington was in 1942 what it is today—a city in which, as one bureaucrat complacently assured me, "you've got to be a Communist to get anywhere." It was even a city in which it was dangerous to be an American. I was there during the obscene farce—cin many ways a tragic farce—called the "Sedition Trial" Everyone in Washington knew that the one purpose of this trial was to intimidate Americans. Read about it sometime. Thirty men and women from all over the country, most of whom had never even heard of one another and who had in common only outspoken criticism of Communism, were hauled to Washington in hand-cuffs and leg iruns, imprisoned in cells kept dark so that they could not read, and subjected to the most fantastic trial for conspiracy ever conducted outside liussia or an admittedly satellite state.

I understand, been appointed on the de-mand of Felix Frankfurter, was one of the new breed of Federal Judges, that is to say, victously corrupt, and he finally died while under impeachment for malfea-sance in office.

The Assistant Attorney General of the U. S. who prosecuted the case was another protege of Felix Frankfurier, and he was rewarded for his efforts when in 1850 he went to Russia as the personal guest of Stalin.

The Hungarian revolt provides one of the hundreds of bits of evidence that show the close cooperation between the Kremlin and the bureaucracy that captured Washington under Franklin Roosevell and has been expanding and strengthening itself ever since

When the Hungarian people spontaneously rose in revolt, they were, as several refugees have assured me, cozened and confused by lying broadcasts from the re confused by Ising broadcasts from the ra-dio station that is so sardonically called Radio Free Europe. This station, which, as Fulion Lewis has recently shown, is staffed largely by Communist agents, is supported by secret grants from C.I.A., our Central Intelligence Agency. It is also supported by funds collected every year from the American people. That is just a, bit of Communist humor. They delight in trick has American sinto contributions. tricking Americans into contributing money to ustensibly charitable enterprises

for their own destruction.

When the Hungarians suffered, and died, and begged in vain for help only one nation in Europe dared to offer them even a modicum of asy lance That was Spain, a nation headed by General Franeven a modicum of assi lance. That was Spain, a nation headed by General Francisco Franco, whom the Communist-dominated press in the United States so regularly vilifies. Spain agreed to send the Hungarians the weapons they most desperately needed, asti-lank guns. Spain arranged to transport the guns in her own planes, and arranged with Germany to permit these planes, on their return trip, to land to refuel, since the Spanish pi, are could not earry enough gasoline for a round trip. Now our Central Intelligence Agency, which seems never to be able to discover anything to the advantage of the United States, quickly found out about the Spanish plan to help the Hungarians.

The C.I.A transmitted the information to our State Department, which immediately went into action and brought very strong pressure to bear on the German government to cancel the permission that

strong presence to bear on the German government to cancel the permission that had been given for the Spatish planes to refuel on their return joinney. Thus was Washington able to save the Russians considerable inconvenience during their massacre of the Hungerians.

The Central Intelligence Agency is an organization so secret that even our senators are not allowed to know anything of its operations. But, as was recently disclosed in National Review, the head of any section of this agency has full power to employ even persons whose Communist records are in the files of the F.B.I. The agency has undoubtedly undergone progressive change in the past into years. It was in June, 1949, you will remember, that Admiral Hillenkoetter, who was then head of the agency, received an inquiry from Senator McCarran concerning such undergone progressive change in the past into years. It was in June, 1949, you will remember, that Admiral Hillenkoetter, replied that secording to a preliminary

check of his records. 23 of these appointers were officers in the Communit:
Party and that 22 others were known
members of the Rouslan explosage systers.
Admiral Hillenkoetter was immediately
transferred to a desolute outpost in the
Pacific. This was, of course, but one of the
many incidents by which our army and
navy officers have been shown that they
dare not do snything that would displease
our Communits conspirators.

I trust that you have not overlo-ked

dare not do snything that would displease our Communist conspirators.

I trust that you have not overlooked the latest triumph of what may fairly be allied the Washington-Moscow Axis. The Batista government in Cuba was not, to be sure, a perfect government, bil it probably was as good a government as one could ever reasonably expect to find in an island largely populated by mongrels. Batista, however, had committed the one sin that is unforgiveable in the sees of the people who call themselves our "liberal intellectuals"; he was an enemy of Communism. Not only was he a reliable ally of the United States, but he had even gone so far as to sever diplomatic relations with Russia, an act which greatly embarrassed our State Department. It was clear, therefore, that he must be eliminated. Accordingly the revolt led by Fidel Castro was organized. You will recall that some of the preparation, for it were quite openly made in Florida.

Now although Castro thought it worth

by rice t caure was organized. You will recall that some of the preparation, for it were quite openly made in Florida.

Now although Castro thought it worth while to say that he is not himself a member of the Communist Party, his principal assistants including his brother, we re notorious Communists, and no reasonable person, even slightly acquainted with Latin-American affairs, could ever have denbted that the Castro revolt was a Communist operation intended primarily to secure bases for the many Russian submarines which are constantly cruising along our Atlantic Coast, and to permit the establishment of rocket bases within one hundred miles of American soit.

During the progress of his takeover in Cuba, Castro received supplies from Sassian submarines, and, of course, wast

Cuba, Castro received supplies from Xussian submarines, and, of course, wast
quantities from the United States. The
shipments from Florida were, of course,
technically smuggled to him, but oddly
enough our government was never able
to intercept them.

But even with this help Castro would
have failed but for the energetic intervention of our State Department. The
technique used is, of course, a standard
procedure and should be quite familiar
to all of us by nov.

You will recall that when General
George Marshall was sent to Calins to strange for the Communist occupation of

that country, he was able to accomplish his mission by simply entiting off from General Chiang Kai-Shet the supplies of ammunition that he needed for his walder's rifles, which were all, of course, of American manufacture, \$150,000,000 worth of ammunition on ships that were about to isand was simply dumped in the occas, and, of course, no further shipments were made. Thus Chiang Kai-Shek's men could not use even their rifles, to say nothing of machine guns and artillery, and he had to retreat before the Communist invaders, who had been equipped with the huge Japanese stores of weapons and munitions that we had turned over to them in Manchuria.

Following this established pattern, our enuris.
Following this established pattern, our State Department eat off all aupplies of ammunition to the arnall army of Colonel Batista in Cuba, which was of course, equipped with weapons purchased in the United States. Even ammunition that Batista had bought and already paid for was confiscated on the docks it seems quite clear that Batista's men did not desert; they simply had nothing to shoot.

You will also remember that while the great betrayal in China was under way under the direction of such eminent figures as General Marshall and Professor Owen Lattimore, the controlled press in this country was filled with propaganda to the effect that Chiang Kul-Shek was a scoundrel, and that the Communist; in China were just innocent "agrarian reformers."

The same technique is, of course, now with manufactured reports of the past inliquities of Batista, and with glowing accounts of Fidel Castro as an "agrarian reformer" and the "George Washington of Cuba."

Caba.".

As soon as the Zussians have built their submarine bases and set su the Issuehing Bedis for ballistic missies in Caba, our State Department will no doubt again tell us: "Oops! We were mistaken. But now that Issuehing sites for atomic missiles have been set up within see hundred miles of the United States, war is unthinkable, ain't it?"

By the way, you will probably witness in the next few months the destruction of our only remaining ally in the Caribbean—our only certain sily south of Canada, the Deminiean Republic. That was, to my mind, clearly forecast by the Gallindez affair three years ago, but it has now been made quite certain by our recent official proclamation, is a sie d over the name of President Eisenbower, to the effect that we look with great disapproval

WHITING, DND.—I have worked hard in these parts in the cause of WE, THE PEOPLE! but I have to disappointed 'til the basic cause of our poor progress has dawned on me.

We cannot compete with the methods of Waiter Reuther, simply because we haven't access to his type of money. cannot compete with his methods, but if we can influenct large numbers of people especially the jounger generation, we could still lick Recher.

Outlandsh and caring as this may at first seem, I don't mind going on record with this statement: "The churches of America are today the worst enemies of our country." Simply because they do not preach the truth. They do not teach what Christ taught; because they breed a false complacency in their do-nothing and saynothing attitude. People respect their churches far more than these churches deserve. As long as the churches suppress national crime and protect individual criminals, the people will likewise remain complacent and inactive and deaf to any national emergency. If we want real sincers action we must then sell and force the churches to take a definite stand in the cause of Truth, Justice and Honesty in government. In this move only do I see hope for the salvation of our country.—Jerome J. La Pai.

CSIICAGO—It is unfair! The man who engineered the landstide results of this last election has not been given the headline credits the has earned. Never before in American rollitics has one man

upon "dictators" aich as General Trujillo. The Communist anderground is our real jdanger, and no eve can accurately measure its total strength. Its members all vociferously deny that they are Communists, and they are so organized that when everything is working properly no one conspirator can positively identify more than five of his accomplices. Lools Budens recounts with wry humor that when he had worked himself far enough up in the Communist Party to become manging editor of the Daily Worker and a member of the official party's national executive council, he began to fancy himself a person of some importance, until one of his superiors remarked dryly, "Son, all that you have seen is just the periscope of the submarine."

On 3 March 1838 Congressman Francis, E. Walter published a report that "the Kremlin has succerded in enlisting, at a conservative estimate, more than a million Americans.... There are at this moment the equivalent of some twenty combat divisions of enemy troops on American soil..., troops that are loyal only to the Soviets." In other words, you are now living in a country that has been partly occupied. Unless the American people now make a desperale effort to save themselves, they will, wit bit in four years, I think, find themselves in the position of the Hungarians when they made their frantic effort to regrin their freedom three upon "dictators" such as General Prujillo.

As far back as 1842, I greatly sensed the dangers of organized labor, through its leader. In reply to a speech mailed , non. Think of the truth of that statement, and how far each has drifted in corruption since 1942: So far, I'm afraid, that the nation is nearing the point of being destroyed, IF something BIG is not accomplished in the NEAR future. Who Are WE, THE PEOPLE! . . .

Who Are WE, THE PEOPLE!

We, the people, as our founding fathers called theinselves, created this government. We placed it under
a constitution that limited its powers and provided
checks and balances so that no group of politicians
could gain more power than we, the people, could
centrel. We did not want this creature (government)
to ever become our master. But through the manipulations of clever politicians and socialistic bureaucrats, we have seen our Federal government become
a monster that now threatens to consume our property,
through taxation and inflation, and to destroy our liberty, through Federal regimentation and controls.

WE, THE FEOPLE: as we call ourselves today-are
the better-informed citizens who are organized to
awaken and arouse our people from their general apathy in order to fight back while we still have some
self-government to fight with!

When it came to politics, for too many years we "le;
George do it." So George is now the professional polilician who is interested only in blocs of votes with
which to get himself re-elected. Hence he seeks to do

the will of the pressure group leaders, who promise him funds and votes for re-election, and he no longer listens to the people back home whom he was elected

listens to the people back home whom he was elected to represent!

Therefore. WE, THE PEOPLE! was organized to make George listen. We are made up of patriots from many walks of life, many faiths and origins, all joined together in a non-partisan, national coalition for effective political action. We now have affiliates in over 1800 communities in all 49 states, Puerto Rico and Hawaii, We are united to protect ourselves and our children from welfare state socialism which would take us into a police state, and dictatorship under world government. We pledge our efforts, our rotes and our support to conservative candidates who will defend the U.S. Constitution and American free enterprise which offers us the widest opportunity for personal progress, security and prosperity.

To reduce government spending, taxation and indiation—and to protect our form of government to save our personal liberty, our private property and eur system of individual freedom, we ask you to join us today?
